

Why work with us?

Many smaller businesses are looking to accountants and payroll bureaux to guide them through auto enrolment, so with the right pension provider you can offer your services to a range of new clients. Our straightforward administration and a comprehensive package of support will help you set up and manage new schemes quickly and effectively.

Smarter. Simpler. Better.

Dedicated Regional Partnership Manager

Every payroll bureau partnering with NOW: Pensions will have access to a dedicated and highly experienced Regional Partnership Manager, who can provide auto enrolment support for your business as well as your portfolio of clients. Each of our Regional Partnership Managers has many years' experience in the pensions industry, achieved with some of the most well-known pension scheme providers in the UK.

Regional Partnership Managers understand all aspects of auto enrolment legislation, however detailed or complicated, and are available to explain to your teams and clients any aspect of auto enrolment.

Your Regional Partnership Manager is an expert on all NOW: Pensions processes and systems, has a good working knowledge of most third party software and can assist your own team members on NOW: Pensions systems to ensure that everyone can use the service confidently and efficiently – they can 'hold your hand' through the process as required.

“ Your Regional Partnership Manager is here to assist you and your clients in achieving auto enrolment compliance. ”

Call **0330 100 3336** or email sales@nowpensions.com now to discuss how we can work together to benefit your business today.

Why make **NOW: Pensions** your default pension provider?

We guarantee we can help

We welcome employers of all sizes and from all sectors. We're committed to providing SMEs with a quality auto enrolment pension.

This means you can take on clients who have struggled to find a suitable pension provider in the past, knowing that we welcome all clients on the same terms – there's no need to ask.

Independent governance keeps your client's scheme secure

NOW: Pensions is an independent multi-employer master trust.

As asset security is paramount for pension savings, member funds are held independently by BNY Mellon, the largest custodian in the world.

Backed by ATP, which manages the second tier state pension in Denmark, and is one of Europe's largest pension fund managers, NOW: Pensions is governed by an independent Trustee Board comprised of a wide variety of well known industry figures.

Free hands-on project and marketing support

Our field based Regional Partnership Managers can help to develop your auto enrolment service proposition and bring it to market with expert marketing and seminar support.

Develop a flexible service proposition

You'll have access to a NOW: Pensions Gateway site, which enables you to manage all clients in one place, with one login, creating significant efficiencies.

You can decide whether to issue statutory auto enrolment communications on behalf of your clients using your payroll software or to let us do that for them. We offer either or both propositions. This allows you to decide which service you want to offer to the market, enabling you to develop a competitive proposition and charging structure to attract and retain more payroll clients.

UK based employer support team

We provide hands-on help with your first client file uploads from our Regional Partnership Managers or bureau support team.

Simple, competitive charges

We apply just one monthly employer charge to cover all services. This charge is reduced for employers with fewer than 5 employees for schemes administered by a payroll bureau.

Unlike some providers the employer charge applies from the duties start date, staging date or start date if earlier, not from when you or the client applies for the scheme. This means you can set up your client schemes well in advance if that helps with resource planning.

We actively encourage employers to consider using the services of a payroll bureau and offer a discount on our monthly charge of up to 65% for those who do.
