

How an extra £10 a month in your pension pot can grow to over £13,000

The average music streaming service costs £10 a month.

£10
a month

£120
a year

£4,800
over 40 years

Over a working lifetime of 40 years, you'll have spent £4,800 listening to your favourite playlists.

We certainly aren't suggesting cancelling – we think **£10 a month** is great value!
But what else could you get for this money?

If someone on a UK average income of £28,500 currently paying the auto enrolment minimum amount into their pension was to pay in an extra **£10** each month, their investment could grow from:

£4,800

to a massive:
£13,060*

over their 40 year working life.

Topping up your pension with NOW: Pensions is easy.

- > simply log in to your online account
- > click on your job contract on the dashboard
- > then follow the link to 'Make an additional voluntary contribution every time I get paid'

Now there's something to put a song in your heart!

*Figures calculated based on a salary of £28,500 paying auto enrolment minimums over a period of 40 years and taking into account inflation, charges and annual fund growth of 5%.
